Invention name:  
FLAVORED CHARCOAL

## Summary

Flavored charcoal provides assistance for the not so experienced cook. By adding flavored spices to cooking without the use of multiple sauces and spices, the charcoals does it all for you.

## Product description

This product consist of charcoal briquettes in five different flavors; onion, green/red pepper, lemon, garlic and paprika. The majority of grills use charcoal or gas as a fire source. Grilling is a versatile method of cooking that is constantly becoming more popular. Instead of marinating food with spices and juices, which can be time consuming and messy, just pour in your favorite bag of flavored charcoals and let the charcoals add
